

THE GIFT OF A ROSE.

BY GEO. D. FAUSTICE.
I send thee, Mary, a sweet young rose,
That bright with the hush of the sunset glows,
Its beauty, alas! is frail and brief—
It will come to thee with a withered leaf—
But the fervent kiss that my earnest lips
Have left for thee on its crimson tips
Will not from the fading flower depart,
But come all fresh to thy lip and heart;
For oh! is a breath of the love and trust
That will live when our lips and our hearts
are dust!

Mary, dear Mary, pray love the flower;
Let it have for thy heart a spell of power;
For I plucked it fresh from its lovely stalk,
On the blooming edge of that garden walk
Where we staid together, so deeply blest,
When the sun was low in the golden west,
And murmured our loves in burning words,
With none to hear but the flowers and birds,
And lingered long on the dear, sweet spot
Where our warm hearts kissed, though our
lips did not.

Mary, dear Mary, my thoughts still cleave
To each memory sweet of that blessed eve,
To each tone more dear than the sweetest
lute.

To each vow we breathed when our lips were
moored;
To the wild, deep thrill through each trem-
bling frame
From fingers warmed with a pulse of flame;
To each gentle tear, to each gentle sob,
To each sigh that told of the heart's deep
throb;
Ay, these memories dwell in this soul of
mine,
Oh, Mary dear, do they live in thine?

Mary dear Mary, I pray thee say,
Do the roses bloom where thy steps now
stray?
Do they look at morn on the sky's soft blue
Through the trembling tears of the early dew?
When I come to thee will they smile to greet
Thy lover's steps with their perfume sweet?
Will they list at eve to our tender vows?
Will they weave their wreaths for our gen-
tle brows?
And when at last we are doomed to part,
Will they breathe a sigh for each breaking
heart?

Mary, dear Mary, I faint would know,
Do thy heart's sweet flowers keep their fresh
young glow?
Are their eyes yet turned on the skies above?
Do they glimmer still with the dew of love?
Has no blighting frost, has no bitter blast,
Cold, cold o'er their buds and their bloss-
oms past?
If my name is said, are their leaves yet stir-
red?
To the olden thrill at the cherished word?
And say, oh say, will those dear heart flow-
ers,
Sill bloom for me in the Eden bowers?

"I think," said Mrs. Part-
ington, getting up from the break-
fast table, "I will make a tower and
go on a excursion. The bill says,
if I collect rightly, that a party is to
take to a very plural spot, and to mis-
take of a cold collection. I hope it
won't be so cold as ours for the poor,
last Sunday! why there wasn't suffi-
cient to buy a feet of wood for a
restitute widder." And the old la-
dy put on her green calash.

"Gentlemen of the jury,"
said a western lawyer, "you are not
here on one of the most solemn oc-
casions that ever happened since I
had a brief. The defendant, being a
stout, able-bodied man, rushed like
an assassin upon my client, who is a
young widow; and why did not the
thunder of heaven blast him when he
stooped towards her, stretched forth
his arms like the forked lightning of
Jupiter, and gave her a kiss on the
mouth?"

A TAVERN INCIDENT.—What are
you about you black rascal? Twice
you have roused me from a sound
sleep to tell me that breakfast is
ready, and now you have awoke me
by attempting to pull off the bed
clothes? "What in the h—l do you
mean sir?" "Why massa, if you
isn't goin to get up, I must hab de
sheet, any how, kase dey'r waitin for
de table clorf!"

"I say, Pete, does you know
how dey keep oysters from smellin'
in de hottest ob wedder?"
"I doesn't think I does, Sam—
how'd dey do 'em?"
"Why, dey fust cut dar noses off,
and den dey can't smell nuffin. Oh
yah! yah! what an unpenumtratum
nigga you is."

TOAST BY A SCHOOLMASTER.—
The fair daughters of America—
May they add virtue to beauty, sub-
tract envy from friendship, multiply
amiable accomplishments by sweet-
ness of temper, divide time by so-
ciability and economy, and reduce
scandal to its lowest denomination.

"Pomp, was you ever drunk?"
"No, I was intoxicated wid ar-
dent spirits once, and dat's nuff for
dis dorkie. De Lord bress you Cæs-
sar, my head felt as if it was an out-
house, while all the niggers in de
world appeared to be splitting wood
in it."

"What are the chief ends of
man?" asked a Sunday school teacher
of one of his pupils.
"Head and feet," was the prompt
reply.
The teacher fainted.

TO THE PUBLIC!

The introduction of Dr. John Bull's un-
equalled Sarsaparilla, has formed an era in the
medical world. Its rise, progress, and the
many wonderful cures it has effected, since it
was introduced to the public, have been a sub-
ject of great astonishment, and even com-
manded the admiration of the American people.
When the history of this truly wonderful
medicine is known, together with the extraordinary
exertions made by Dr. Bull, to make it the
most valuable compound of Sarsaparilla known
to the world, its rapid and unprecedented
rise and progress, will no longer be a theme
of astonishment.

Twenty-six years since Dr. Bull, then a boy,
came to Louisville, and was employed for
number of years in studying the business of
an Apothecary, with Messrs. Byers & Butler,
Dr. T. E. Wilson, and the lamented Dr. George
Jr. After leaving the service of Dr. Wilson,
Dr. Bull was employed by Dr. F. Scorch, an
old and celebrated German Physician of this
city, and for many years, a Surgeon in the
Grand Army of Napoleon. Dr. Scorch,
during his life, made a fluid Extract of Sarsa-
parilla for the special use of the physicians
of this city, and which was considered at that
time by far the most superior article made.—
Dr. Bull was employed by Dr. Scorch, in com-
pounding this celebrated Sarsaparilla, and he
then conceived the idea and finally fully de-
termined (several years since) to introduce
at some future period, for the consideration of
the afflicted, a preparation of Sarsaparilla.

Since that time his mind has been constantly
employed in studying the ingredients, and
experimenting to find a complete, safe, and
valuable compound of Sarsaparilla, such a one
as would be acknowledged by physicians as
undoubtedly in its efficacy, and hailed by the
afflicted with demonstrations of joy. By close
and painstaking study, he has succeeded in
obtaining the desired end. His extract has
been several years before the public, and its
merits completely tested, he confidently ap-
peals to the thousand certificates of its won-
derful cures, and hence for its great superior-
ity over all other similar compounds. It is
therefore a matter of no surprise, that the
question is frequently asked—"Why does Dr.
Bull's Sarsaparilla continue to advance rapidly
in the favor and confidence of the public,
when all other similar preparations, which
have preceded his, has been cast aside as un-
worthy of the slightest notice?" Though it
is not required yet this question is easily an-
swered. Dr. Bull has not worked alone for
pecuniary preference; gain has not been his
sole object; he has had a higher and a nobler
aim constantly in view—that of relieving the
sufferings of his fellow-creatures. Unlike
those who compound a good article for a short
time that they may gain a reputation, and
having attained the object of their wish, re-
duce their article, by leaving out its most val-
uable ingredients, to a worthless mixture, in-
order to accumulate wealth, Dr. Bull has con-
tinued to use the costly ingredients which his
long study and experience enabled him to
discover, and which has been of such invalua-
ble service to suffering humanity. He seeks
to gain an unspotted reputation, not only for
himself, but also for the renewed Sarsaparilla,
and is a fact worthy to be recorded, that
every gallon of the Sarsaparilla sold by Dr.
Bull is made with his own hands and under
his immediate superintendence. For several
years past he has been daily experimenting
in administering his mixture, without charge,
to patients pronounced incurable, and to his
terrenal fame he has recorded, his efforts have
been crowned with the most wonderful success.
His Sarsaparilla has now gained such a wide-
spread reputation, and been established upon
such a solid basis, that he is firmly satisfied
of his undoubted merits, and confidently chal-
lenges the combined Medical skill of Europe
and America to produce, out of Sarsaparilla,
a superior to his Fluid Extract.

Dr. Bull would here like to introduce a few
of the many testimonials of the wonderful
effects of his Sarsaparilla, but to publish the
one quarter of the astonishing cures effected
by the use of this truly great medicine, would
require a volume of five hundred pages, and
the Doctor has to be satisfied by offering the
opinions of a few distinguished men, believ-
ing that these opinions will be sufficient to
induce all who are afflicted to give Bull's sar-
saparilla a trial.

TESTIMONIALS.
Rev. E. W. Schen—Rev. E. Stevenson.
The following is a verbatim copy of a cer-
tificate now in the possession of the prop-
rietor of Bull's Sarsaparilla. Rev. E. W. Schen
is widely and generally known as an eloquent
and accomplished Pastor of the M. E. Church,
and Rev. E. Stevenson has been known as one
of the most talented and zealous members of
the Ky. Conference could boast of for many
years—and at this time is filling the high and
responsible station of agent for the M. E. Book
Concern. Can the world produce better, or
more satisfactory testimony in favor of my
medicine?

Louisville, May 20, 1849.
We have used John Bull's Sarsaparilla, and
have known it to be used with entire satis-
faction; and we have no hesitation in stating
that we believe it to be a safe and valuable
medical compound, and calculated to produce
much good, and relieve much suffering; and,
therefore, would cheerfully and most earnestly
recommend it to the afflicted.
[Signed] E. W. SCHEN,
E. STEVENSON.

TESTIMONY like the foregoing, renders
superfluous all comments on the efficacy of
Bull's Sarsaparilla:
From Dr. L. P. Vandell, Prof. of Chemistry
in the Louisville Medical College.
"I have looked over the list of ingredients
comprising John Bull's Compound Extract of
Sarsaparilla, and have no hesitation in saying
that they form a safe compound, and one that
promises well in chronic diseases, to which it
is applicable." L. P. VANDELL, M. D.
Louisville, June 6, 1850.

BETTER TESTIMONY than was ever of-
fered in favor of any Medicine,
From Dr. J. M. Moore, a Physician of
that I believe your Sarsaparilla to be the
best article ever manufactured for the cure of
Scrofula, Syphilis, and many other Cutaneous
and Glandular Affections, having used it with
entire success in a number of the above cases.
Louisville, Dec 26 '50 J. M. MOORE, M. D.
What Dr. Pyles, Physician by appointment,
in the Louisville Marine Hospital, says of
Bull's Sarsaparilla:—

Louisville, March 20, '49.
I have examined the prescription for the
preparation of John Bull's Sarsaparilla, and I
believe the combination to be an excellent
one, and well calculated to produce an altera-
tive impression on the system. I have used it
both in public and private practice, and
think it the best article of Sarsaparilla in use.
M. PYLES, Resident Physician at the Loui-
sville Marine Hospital.

More testimony from Dr. Moore.
Dr. Bull is now using your Sarsaparilla in
several new cases of Scrofula, and with happy
effect. I am now confident it is one of the
most efficacious medicines that can be made
for that disease. J. M. MOORE, M. D.
Winchester, Ky. Feb. 1, 1848.

This Medicine, when used according to di-
rections will cure without fail.
Scrofula or King's Evil; Cancer; Tumors;
ruptions of the skin; Erysipelas; Chronic sore
Eyes; Ringworm or Tetter; Scaldhead; Rheu-
matism; Pains in the joints; old sores and ul-
cers; Swelling of the glands; Dyspepsia; Salt
Rheum; Diseases of the Kidneys; Dropsy;
debility; Lumbago; dropsy; sore throat; Bron-
chitis; Coughs; Colic; Weakness of the chest;
Pulmonary Affections; Consumption; Liver
complaint; Female Irregularities and Com-
plaints; Sick and Nervous Headache; Low
Spirits; Night Sweats; Exposure or Imprudence
in life; Chronic Constitutional Diseases; and
as a Spring and Summer drink and general
Tonic for the system and a gentle and pleas-
ant purgative, it is superior to Blue Lick or
Congress water, Salts, or Seditive powders.
Principal Depot 81 Fourth Street, Loui-
ville, Ky., and for sale by O. HENDERSON,
Sale Agent, Glasgow Mo. (Oct. 3-31-y.)

Rheumatism Cured!!

THE unequalled success which has at-
tended the use of FORTYMORE'S RHEU-
MATIC COMPOUND AND BLOOD PURI-
FIER, in effectually curing the severest and
most inveterate cases of INFLAMMATORY
AND CHRONIC RHEUMATISM, is a suf-
ficient guarantee and recommendation to
all who are afflicted with this dreadful
disease to try its virtues.

Hundreds of cases, many of them citizens
of St. Louis and others from abroad, have
been cured within the last few months in the
city of St. Louis alone, while letters from
agents abroad show, also, that it is perform-
ing the same wherever tried. Many of these
were Chronic cases of long standing, and all
hope of recovery had been given up. While
others were of more recent date; of the acute
inflammatory form, very severe. All however,
yielded to the wonderful virtues of this medi-
cine, and thousands who have realized its
benefits, and are now in the enjoyment of
health, can but esteem the original discoverer
and proprietor, a benefactor of mankind.

It is well known from the experience of the
past, that no outward application can possibly
effect a permanent cure of this dreadful dis-
ease. By the application of stimulating lin-
iments, partial relief, in some cases, may be
obtained for a short time. But all the while
this disease is fixing its grasp more perma-
nently in the system, and sooner or later will
again develop itself in a more dreadful form,
and after a few periodical returns, it settles
into a chronic form, which, if not soon ar-
rested, ruins the individual for life. This is
verified by the history of the past in all countries,
and more fully demonstrated by the history
furnished of late to the proprietor of this Com-
pound, as given by several hundreds of those
who have passed under his immediate notice
and treatment during the last few months.

Fortymore's RHEUMATIC COM-
POUND AND BLOOD PURIFIER is an in-
ternal remedy—commences its operations
where the disease first originates, and, in pu-
rifying the blood passes through the whole
system, neutralizes the impure, or caustic se-
diment which has settled upon the membranes
muscles and tendons—removes it entirely from
the system, and restores the individual to
perfect health.

Let those who are afflicted not deceive
themselves, and put off the use of this medi-
cine too long, or until their limbs are dis-
located or contracted to such a degree that
they are cripples for life. The experience of hun-
dreds of thousands during the past, as well as
a multitude at the present day, demonstrates
the folly of expecting permanent relief from
external application.

The proprietor of this valuable medicine
knows, from experience, that no outward ap-
plication can possibly effect a permanent cure,
where the disease is firmly fixed in the sys-
tem. He can and does prepare and apply Com-
pound in very acute cases, which will give
relief in one hour's time, but this will not
effect a permanent cure. The nature of this
disease is such that it requires longer time,
and an internal remedy, to produce the de-
sired effect and Fortymore's Rheumatic Com-
pound and Blood Purifier is the only remedy
that has ever been discovered, either in Amer-
ica or any other country, that will effectually
cure this disease.

The medicine can be had, wholesale or re-
tail, at the Medical Depot, corner Third and
Vine sts., opposite Barnum's City Hotel, St.
Louis, Mo.
Price—\$5.00 per bottle; 6 bottles for \$25
or \$48 per dozen.
Pamphlets, with certificates of some of
the first citizens of St. Louis, to be had gratis
of the following Agents, who are supplied
with the Medicine.

Rheumatism Can be Cured. BY THE PROPER USE OF MYERS' EMBROCATION!

THIS sovereign and effectual remedy for
that painful disease, was discovered upwards
of sixty years ago by the Grand-Father of the
undersigned, (a German Physician of his day)
and has never been made known out of his
family.

Its incredible cures have astonished thou-
sands who have witnessed its power over that
disease. Unfortunately, despairing invalids, who
have been bed-ridden for years, have been re-
stored to the enjoyment of perfect health. It
benches all pain in a few days, and its efficacy
is gradually realized by the patients being able to
resume their usual avocations, after having
suffered for months and years—

The wonderful success of the EMBROCA-
TION, in curing the worst cases of Rheu-
matism, has acquired for it a celebrity un-
precedented, and its fame originated from its
own merits. It never has failed to cure
Rheumatism, either inflammatory or chronic;
and I feel safe in saying it never will if fairly
tried. I pledge myself to refund the cash to
any person who uses it properly without being
benefited thereby. You who are afflicted may
have tried every other remedy but this. Try
it, and if it does not cure, it will not cost
you anything. By this rule I desire it should
be used.

Persons are warned to be on their guard of
whom they purchase, as several mean at-
tempts have been made to procure the name
from which this medicine is prepared. The
proprietor deems it his duty to say to the af-
flicted, that he will furnish travelling agents
with written authority for depositing it. My
name is on each bottle, and none
genuine unless prepared by HENRY C. MYERS,
Fayette, Missouri.

EVIDENCE OF ITS EFFICACY.
Read what those say of the Embrocation who
have used it. A few of the hundreds who have
testified can only be quoted here.

From Elders T. M. ALLEN and M. P. WILLS,
BOONE COUNTY, Mo., August 21, 1848.
This is to certify, that we have used "Myers'
Embrocation" in our families with entire
success, and we hereby take great pleasure in
recommending to any who may be afflicted with
Rheumatism as a most sovereign remedy.

From M. P. WILLS.
SPRINGFIELD, Ill., February 20, 1848.
This is to certify that I was cured of a se-
vere attack of Inflammatory Rheumatism, from
the use of one bottle of your Embrocation, and
hope every fellow-sufferer will use it, for
their is no doubt but it will cure any case,
however violent; this I can safely assert after
using it myself.

Yours, Respectfully,
HENRY C. MYERS, Fayette, Mo.
HAMPTON L. BOOK, Clerk of the Supreme
Court of Missouri, and Editor of the Jefferson
City Metropolitan, speaks of the Embrocation
as follows, in his paper:

We desire to call the particular attention of
all persons afflicted with Rheumatism to this
very valuable medicine. One bottle we be-
lieve, will cure any case, however violent.
The senior editor of this paper, during the
last winter and present spring, suffered so
much from Rheumatism that he was unable at
times to walk or stand upon his feet, or even
change his position in bed without assistance.
A part of a bottle cured him in a few days.
His son was also afflicted with the same dread-
ful complaint, and suffered the most excrutia-
ting pain until an application of the Embrocation
was made, which effected an entire cure.

Col. Minor of this city, also had a severe
attack of Rheumatism this spring from which
he suffered severely, and which confined him
to his bed for several weeks. Nothing gave
him any relief until he sent to Rocheport, for
ty miles, and procured a bottle of this medi-
cine, which expelled his pains almost instantly.

Mr. Myers ought to have an agent in every
county in the State, with which this medi-
cine should be deposited for sale. We repeat
our honest conviction, for the benefit of those
suffering with Rheumatism, that one bottle of
this medicine will cure the most violent case
that can be found.—Metropolitan.

BETHANY Mo., March 10, 1848.
Dear Sir:—At your request I called at
Rocheport on my return home, and got a bot-
tle of your Embrocation; and gave it to a
neighbor whose wife had been much afflicted
with Rheumatism of the Chronic form for
years. The effect is so self-evident, that if
you see proper, you can send me 50 bottles,
as I can dispose of it now that it has been
tried here.
Yours, Respectfully,
W. L. WATKINS.

H. C. MYERS, Fayette, Mo.
For sale at the following agencies, DIGGES &

Groceries! Groceries!!

I TAKE pleasure in announcing to my
friends and the public generally, the ar-
rival of my large and well selected supply of
Groceries. I have bought heavily and at
low prices, and am therefore prepared to offer
great inducements to customers. I would
respectfully tender my thanks to those who
have so liberally patronized me since open-
ing and hope to still merit a share of the
custom of this and the adjoining counties.—
We ask you to call and examine for your-
selves, and as you are determined to sell, we
shall always be glad to show you our stock,
which is very large, and consists of
all the articles usually kept in our line,
among which are
1672 bags G A Salt
50 doz L B do
50 barrels Kaffee salt
200 do and 16 barrels whiskey
25 Hds Prime sugar
25 doz Coffee, crushed and loaf sugar
200 do Plantain
10 do Sugar House do
2 do Rice, superior article
1 do Gin do do
90 bags Rio and Java coffee
1 bbl Rum
10 do N Y Oat, Seignette & cheap
2 do No 1 & 2 Mackerel (branded)
40 Bags Cotton Yarn
60 kegs nails
55 do
also a large lot of wooden ware, consisting
of Tubs, Buckets, Bowls, churns &c. &c. to-
gether with a general assortment of smaller
articles to numerous to mention.

partment must be addressed to
E. W. M. KING, Esq.
Memphis, Tenn. March 1850.

The Faculties, for intellectual abilities,
moral worth and professional acquirements,
will compare favorably with the most distin-
guished in our country. The medical faculty
constitutes an anomaly in this or any other
country, all of them are able lecturers and the
best of teachers.

Those who will contemplate our geographi-
cal position, and the extent of our population,
can have no doubt as to the eligibility of our
situation for an enterprise of the kind. As
to health, including all seasons of the year,
we deny that any other city has more.

A common error exists in the minds of
many students relative to the place of study-
ing medicine; those who intend practicing
among the diseases of the west and south
should certainly educate themselves at a
school whose Faculty are practically acquain-
ted with those diseases.

That the public may be satisfied of the perma-
nency of this school, we feel it our duty to
state, that the Trustees and Faculty form a
unit in action, which augurs well for its fu-
ture success; and that the peculiar internal or-
ganization which connects them, cannot be
interrupted.
E. W. M. KING,
President of the Memphis Institute.
